Oh and by the way, this is just the "tip of the iceberg" for our access needs for this field season. Other access requirements will be coming soon.

Well it turns out that the 1 sampling point that we don't have access for to begin some pre-runoff sampling in the Animas River is owned by Larry Perino. I can send Larry our standard AA and ask him to return it to us ASAP- he will be aware of this early sampling by Lisa since the email traffic has included some ARSG folks so I don't think (hope??) he will object but.....?????????

Let me know if you have other thoughts – ideas. This sampling is important and this particular point is important.

Good Morning,

Sample point T4 sits on the Bend Placer that is currently owned by Larry Perino. He purchased it from Sunnyside.

Also, I'll be quietly ducking out of your conference call at 2pm this afternoon. Talk to you soon.
